COUNTRY Germany (Russian Zone)

SUBJECT Miscellaneous Items from Oberspreewerk,
Berlin-OberschöneweidePLACE 25X1A
ACQUIRED [REDACTED]DATE OF
INFO. [REDACTED]

25X1X

1. By order of the Russian authorities, the Oberspreewerk, Berlin-Oberschöneweide, was directed on 28 September 1951 to terminate its production of television receivers (type Radeberg). All completed receivers and parts of those under construction at the time had to be packed immediately for shipment to the USSR. The Russians had ordered 35,000 of these receivers, and, as of 28 September 1951, 14,000 had been completed for delivery. Nothing further is known concerning the reason for the sudden cancellation of the production of this item nor whether it might later be continued.
2. In early September 1951, the Oberspreewerk had received the same kind of directive concerning its production of "Stuttgart" equipment. All completed equipment, with technical documents, drawings, etc., was immediately shipped to Russia, and further production was stopped.
3. Dr. Eckardt, head of the high frequency development section, resigned from this position because of disagreement with the chief director of the Oberspreewerk, Rudi Müller. Dr. Eckardt is presently employed in the Heinrich Hertz Institute complex in Berlin-Adlershof, under Dr. Hachenberg.* In the Oberspreewerk, Dr. Ulrich has been appointed as provisional successor to Dr. Eckardt.
4. Both Dr. Hachenberg and the SAG Avtovelo Technical Bureau in Berlin-Adlershof are at present actively searching for high-frequency specialists to fill vacant positions.

25X1A* [REDACTED] Comment: Dr. Hachenberg was formerly head of Oberspreewerk's experimental plant.
